

Application Serial No.: 10/873,986
Amendment and Response to April 20, 2005 Non-Final Office Action

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) A method, comprising the steps of:
determining a plurality of communication devices associated with an identity;
determining at least one media capability associated with each of said plurality of communication devices;
determining availability information for each of said at least one media capability;
and
providing, via a user interface, an aggregated view of data indicative of said availability information for each of said at least one media capability for each of said plurality of communication devices.

2. (Currently amended) The method of claim 1, further comprising the step of:
receiving a request for information regarding media ~~channel~~ capability availability for said identity.

3. (Currently amended) The method of claim 1, further comprising the step of:
receiving a request for information regarding media capability ~~channel~~-availability for said plurality of communication devices.

4. (Canceled)

5. (Original) The method of claim 4, wherein said interface provides information identifying said device.

Application Serial No.: 10/673,986
Amendment and Response to April 20, 2005 Non-Final Office Action

6. (Original) The method of claim 4, wherein said interface provides information identifying said identity.

7. (Original) The method of claim 4, wherein said interface provides information identifying an identity context associated with said identity.

8. (Currently amended) The method of claim 1, further comprising the step of: determining a device context for each of said plurality of communication devices.

9. (Currently amended) The method of claim 1, further comprising the step of: determining a rule governing availability of said at least one media capabilitychannel.

10. (Currently amended) The method of claim 1, further comprising the step of: determining a rule that governs how availability of said at least one media capabilitychannel is to be determined.

11. (Original) The method of claim 1, further comprising the step of: determining an identity context for said identity.

12-16. (Canceled)

17. (Currently amended) . An article of manufacture comprising:
a computer readable medium having stored thereon instructions which, when

Application Serial No.: 10/673,986
Amendment and Response to April 20, 2005 Non-Final Office Action

executed by a processor, cause said processor to:

determine a plurality of communication devices associated with a identity;

determine at least one media capability associated with each of said plurality of devices;

determine availability information for each of said at least one media capability;
and

provide, via a user interface, an aggregated view of data indicative of said availability information for each of said at least one media capability for each of said plurality of communication devices.

18. (Currently amended) A system, comprising:

a processor;

a communication port coupled to said processor and adapted to communicate with at least one device; and

a storage device coupled to said processor and storing instructions adapted to be executed by said processor to:

determine a plurality of communication devices associated with an identity;

determine at least one media capability associated with each of said plurality of communication devices;

determine availability information for each of said at least one media capability;
and

provide, via a user interface, an aggregated view of data indicative of said availability information for each of said at least one media capability for each of said plurality of communication devices.
